THERE'S DESIGN AND THEN THERE'S STYLE

A POWERFUL DESIGN STATEMENT WITH TRUE SUV CHARACTER.

The RAV4 is an SUV that was built to be driven – and designed for those who choose to stand out. Pairing the robust looks of a fully fledged SUV with sharp, dynamic styling, the RAV4 displays a sleek, urban edge. Powerful with a real road presence, RAV4's strong body draws the eye from the elegant front LED headlamps, along the bold profile silhouette and through to the unique LED tail lights – producing a look that is individual and refined.

RAV4's rugged SUV stance proves it looks and acts the part, while being completely at home in the city.

Model shown is Hybrid Style.

THERE'S HYBRID AND THEN THERE'S TOYOTA HYBRID

THE HYBRID SUV DESIGNED FOR EVERY ROAD AND EVERY CITY.

RAV4's powerful 2.5-litre Hybrid Dynamic Force powertrain delivers outstanding performance without compromise. It gives you confidence in every driving situation, from fast-moving motorways to congested cities with emission restrictions and challenging road conditions. And thanks to its self-charging Hybrid powertrain, you'll also enjoy exceptional range – giving you the benefits of electric power, such as a quiet drive and greater efficiency, without inconvenience.

With RAV4, you can glide through the city, embrace the open road and leave compromise behind.

Model shown is Hybrid Style.

THERE'S CONTROL AND THEN THERE'S CONFIDENCE

DRIVES LIKE NO OTHER SUV BECAUSE IT'S BUILT LIKE NO OTHER SUV.

RAV4 represents an uncompromising balance of space, ride comfort, power and all-road capability. The innovative TNGA* platform has enabled Toyota's engineers to reduce the car's weight, lower its centre of gravity and increase both chassis rigidity and driver visibility. Together, these changes make RAV4 easier to handle and seriously fun to drive. The platform has also given the designers more freedom to create a stylish car, with more room throughout for both passengers and luggage.

The result is a supremely capable SUV in which you can go anywhere in safety and style – and one you will just love to drive.

Model shown is Hybrid Style.

THERE'S POTENTIAL AND THEN THERE'S POWER

DRIVE MODE SELECTOR

Choose Eco mode for efficiency, Sport mode for a more thrilling experience, or Normal mode for everyday driving. And when you are facing challenging conditions, just hit the Trail switch and the AWD-i system will keep you moving even if only two wheels have traction.

A FUSION OF PERFORMANCE, EFFICIENCY AND LOW EMISSIONS.

RAV4 confirms its position as leader of the SUV market with the groundbreaking 2.5-litre Hybrid Dynamic Force powertrain. Available with the intelligent all-wheel drive (AWD-i) system, RAV4 delivers an impressive performance both on- and off-road. And with the ability to adapt to changing driving conditions automatically, you'll have all the traction you need, whenever you need it – in snow, in mud, on steep slopes and even when cornering at speed.

You can choose between the formidable 2.5-litre Hybrid Dynamic Force powertrain, or the capable 2.0-litre Petrol Direct-injection, with the option of either front- or all-wheel drive. And whichever you choose, you can be sure that no other SUV delivers the same outstanding balance of power, efficiency and pure driving pleasure as the RAV4.

Model shown is Hybrid Style.

THERE'S CONTROL AND THEN THERE'S CONFIDENCE

TOYOTA T-MATE. WITH YOU FOR A SAFER JOURNEY.

T-Mate is a series of systems designed to support you and make driving safer, whether you're on the motorway, in the city or parking, T-Mate makes sure you're always in safe hands. These systems not only help to protect you and your passengers but other road users. It's all part of Toyota's commitment to road safety and our mission to make traffic accidents a thing of the past.

Learn more about T-Mate.

PRE-COLLISION SYSTEM (PCS)

Our Pre-Collision System can detect and help you avoid collisions with other vehicles, pedestrians and cyclists. It works by alerting the driver with audio and visual warnings and brake assistance. If the driver doesn't manage to brake in time the brakes automatically engage to prevent or mitigate a collision. Additionally, Intersection Collision Avoidance Support and Emergency Steering Assist support in the day when turning at junctions and making evasive manoeuvres.

ADAPTIVE CRUISE CONTROL (ACC)

This system keeps you at a minimum pre-set distance from the vehicle in front. If this distance falls, the system reduces your speed and eventually the brakes will be applied and brake lights activated. If your car is equipped with Road Sign Assist (RSA), this system will also recognise speed limits on your driving route and suggest any necessary adjustments.

AUTOMATIC HIGH BEAM (AHB)

The Automatic High Beam system looks down the road to see oncoming headlights. If it detects headlights, it automatically turns off high beam and engages low beam. When the headlights pass, the system automatically switches to high beam again. The result? Safer night-time driving for you and other road users.

LANE TRACE ASSIST (LTA)

Our Lane Trace Assist System is designed to make motorway driving safer. It keeps you centred in your lane and if you start to drift from it, steering assist will gently steer your car to correct its course.

Model shown is Hybrid Style.

BLIND SPOT MONITOR (BSM)

Our Blind Spot Monitor system alerts the driver to any vehicles they might not have seen in their side mirrors. This is particularly useful when overtaking.

REAR CROSS TRAFFIC ALERT WITH AUTOMATIC BRAKING (RCTAB)

When you're backing out of a parking space, this system will identify any vehicles approaching from the left or right, alert you to them and apply the brakes to help to avoid a collision.

PANORAMIC VIEW MONITOR (PVM)

Parking is easier and safer with this system which combines the images from four cameras to create an almost 360° view of your surroundings.

TOYOTA SMART CONNECT – ROAD EVENTS

This system alerts the driver about local hazards, such as accidents ahead or slippery surfaces, by collecting information from other drivers and displaying alerts on the vehicle's multimedia screen. Depending on the type of multimedia system equipped, potential hazards can also be reported, contributing to an overall improvement in traffic safety.

REAR SEAT REMINDER SYSTEM (RSRS)

This system alerts the driver if a passenger or object is left on the rear seat when leaving the car. The alerts will include: a warning in the cockpit meter and, subject to model, after locking the car, also hazard lamp and an audible buzzer will activate.

THERE'S PARKING AND THEN THERE'S T-MATE

MAKING DRIVING AND PARKING SAFER AND MORE CONVENIENT.

As part of Toyota's commitment to making traffic accidents a thing of the past, the RAV4 offers innovative driving and parking assistance. Panoramic View Monitor combines images from four cameras for a 360 view of your surroundings, so nothing is out of sight – even when manoeuvring in confined spaces. And just in case you missed anything, warnings from your Blind Spot Monitor and Rear Seat Reminder System alert you to when overtaking and exiting the vehicle.

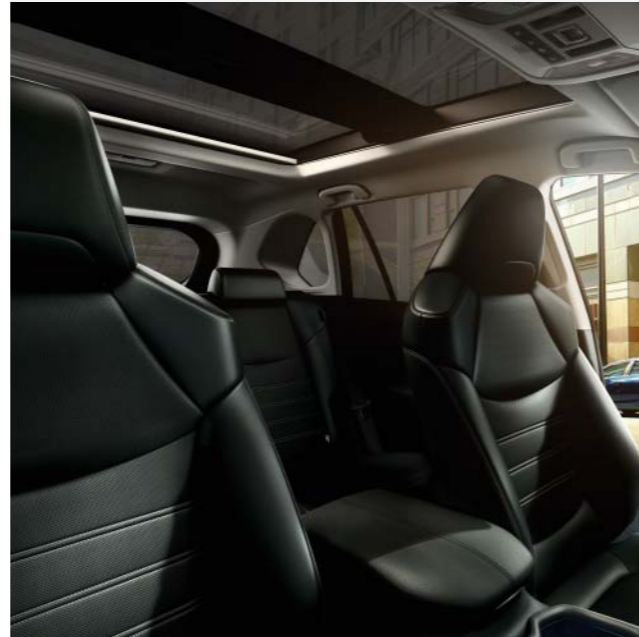

Learn more about T-Mate.

Model shown is Hybrid Style.

THERE'S SUFFICIENT AND THEN THERE'S SUBSTANTIAL

A CABIN WITH THE SPACE TO SPREAD OUT – FINISHED WITH A REMARKABLE SENSORY QUALITY.

In the Toyota RAV4, robust exterior design meets thoughtful interior arrangement. Built around a wide centre console and contemporary new instrument panel, the impressive cabin is a comfortable space for every passenger. Enjoy great visibility thanks to an elevated driving position that opens up the road ahead. Seamless style meets efficient high technology with innovative features like wireless charging and a tailor-made 9-speaker JBL® audio system for concert quality sound. Seamless smartphone integration means you can use your favourite apps via Apple CarPlay and Android Auto™. The cleverly designed large boot space features a full flat floor with no lips or ridges so you can easily slide luggage in and out. And because the rear seats fold flat, effortlessly create more space when you need it.

ILLUMINATE THE CABIN

An electrically operated, panoramic glass moon roof floods the car with light, making the most of the welcoming interior space.

Model shown is Hybrid Style.

THERE'S INTELLIGENT AND THEN THERE'S SMART

**INTUITIVELY INCORPORATED TECHNOLOGY MAKES DRIVING A DREAM
THANKS TO TOYOTA SMART CONNECT.**

The 10.5" touch screen displays all your important information in one place – with Smart Voice Assist technology making it easier than ever to focus on the road ahead. Through Toyota Smart Connect, Smart Voice Assist, artificial intelligence and the cloud work together in sync, so you'll never need to press a button while concentrating on the road ahead. Without taking your hands off the wheel, have control in more than 100 different ways across your phone, navigation, audio, and other vehicle controls like air conditioning and seats.

Model shown is Hybrid Style.

THERE'S CLEVER AND THEN THERE'S CONNECTED

DESIGNED TO MAKE DRIVING EASIER, THE MyT APP ON YOUR SMARTPHONE OPENS UP A WORLD OF CONNECTIVITY.

MyT is a set of connected services for your car, designed to make your life easier. Offering a suite of services, the MyT App allows you to link up and stay in contact with your Toyota. MyT connected services provide you with real-time updates, such as speed camera warnings, journey planning and online service booking.

In addition, you also have access to Hybrid Coaching which helps you optimise your EV driving and improve fuel efficiency, ensuring you can get the most from your hybrid.

Discover more features.

FIND MY CAR POWERED BY GOOGLE MAPS

Find My Car tells you exactly where your car is – so you will always remember where you parked.

DRIVING DATA

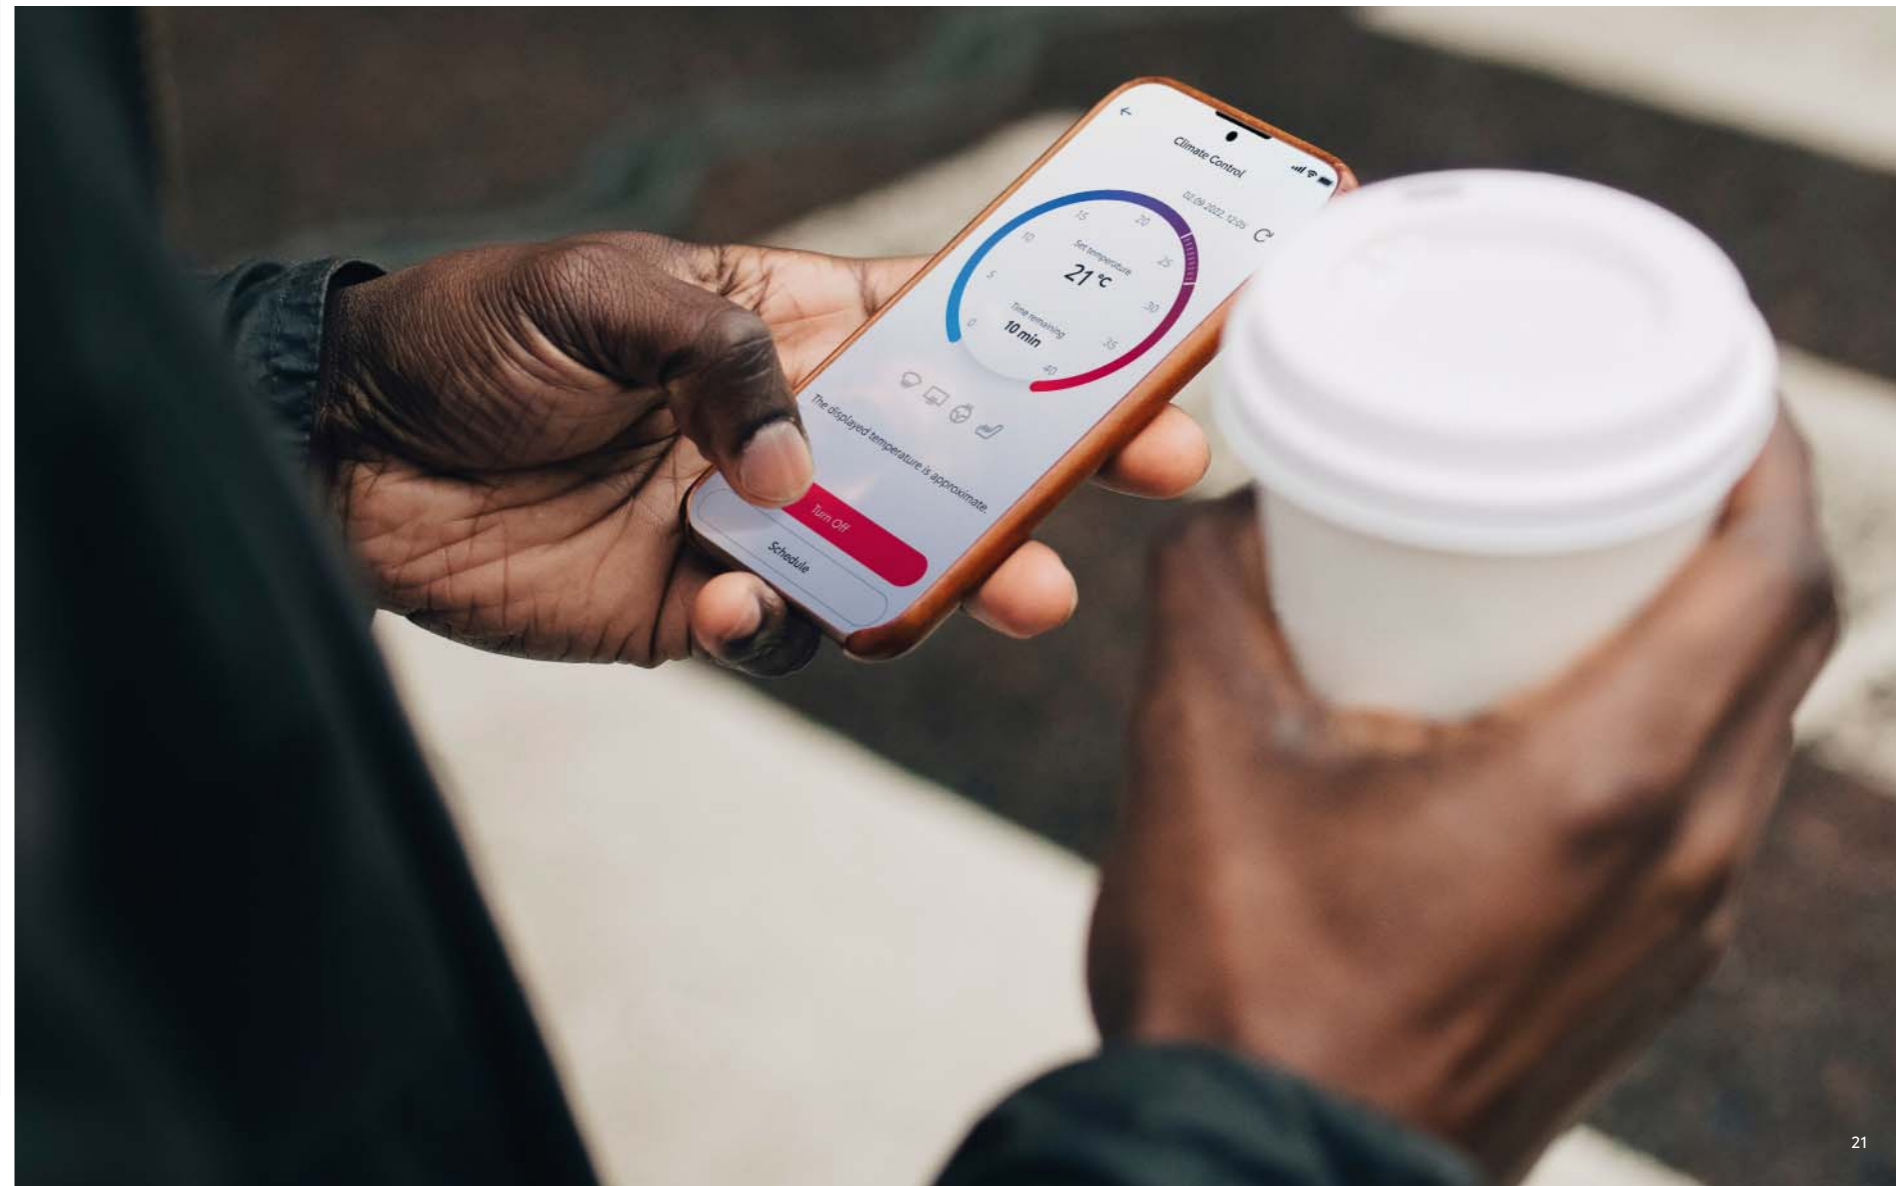

Record and review all your driving data, including speed, acceleration and mileage.

REMOTE SERVICES

Use your phone to schedule air conditioning to cool and heat your vehicle before driving, lock and unlock the doors and flash the hazard lights to locate your vehicle.

SERVICE REMINDERS

With advance maintenance reminders based on your car's actual mileage, you'll never miss a service again.

ACTIVE GRADE

Your entry to the world of RAV4, with a range of standard features. Enjoy access to all the essentials, in one uncompromising package.

MAIN FEATURES

- Black fabric (FA20)
- 17" light silver alloy wheels (5-spoke)
- LED rear light guide
- Smart Entry & Start System
- Dusk sensor
- Rain sensor
- Power boot
- Front and Rear parking sensors
- Rear-view camera
- Pre-Collision System with Pedestrian and Cyclist Detection
- Road Sign Assist
- Full-range Adaptive Cruise Control
- Automatic headlamp levelling
- Lane Trace Assist
- Bluetooth® hands-free system
- Dual-zone automatic air conditioning
- Electrochromatic rear-view mirror
- Rear-view camera display in audio screen
- 7" screen for information display

Configure your RAV4.

STYLE GRADE

For drivers who like to make an impression, the Style Grade represents an uncompromising statement. A wealth of stunning details comes together to create a RAV4 with a cool, urban edge.

Model shown is Hybrid Style.

MAIN FEATURES

(additional to Active)

- Black leather-style with blue stitching (EC20)
- 18" black painted alloy wheels (5-double-spoke)
- Privacy glass on rear windows
- Attitude Black roof
- Power-sliding driver seat
- Power-reclining driver seat
- Power-height-adjustable driver seat
- Power-adjustable lumbar support on driver seat
- Heated driver & front passenger seats

LOUNGE GRADE

This grade offers a great balance of form, function and features. It's the modern SUV that has all the essentials, alongside styling to set you apart.

Model shown is Hybrid Lounge.

MAIN FEATURES (additional to Active)

- Leather seats
- 12.3" screen for information display
- Privacy glass on rear windows
- Heated driver & front passenger seats
- Wireless mobile phone charger
- Panoramic View Monitor
- 18" dark silver alloy wheels (5-double-spoke)
- Puddle lamps on door mirrors
- Blind Spot Monitor (BSM)
- Rear Cross Traffic Alert (RCTA)
- Memory function on driver seat

RAV4 ADVENTURE GRADE

With an all-new rugged design and powerful hybrid capability, Toyota RAV4 ADVENTURE is built for the big outdoors. Drive through cities and beyond horizons into the unknown with the powerful hybrid AWD-i and live life to the full.

Model shown is Hybrid RAV4 ADVENTURE.

MAIN FEATURES (additional to Style)

- Black leather-style with orange stitching (EB20)
- 19" matt grey alloy wheels (5-spoke)
- Dynamic Grey roof
- RAV4 ADVENTURE upper front grille
- Blind Spot Monitor (BSM)
- Rear Cross Traffic Alert (RCTA)
- JBL® premium sound system

GR SPORT GRADE

Hit the road in refined style with the new GR SPORT Grade. From machine-faced black alloys to an imposing grille design, make a statement without compromise.

Model shown is Hybrid RAV4 GR SPORT.

MAIN FEATURES (additional to Style)

- GR SPORT black synthetic leather and suede with silver stitching (EF20)
- 19" GR SPORT glossy black alloy wheels with fine line cutting (5-double-spoke)
- GR SPORT front fog lamps (LED)
- GR SPORT upper front grille
- Blind Spot Monitor (BSM)
- Rear Cross Traffic Alert with Brake Assist (RCTAB)
- JBL® premium sound system
- Memory function on driver seat

ACCESSORIES

Tailor your RAV4 to your lifestyle – adding to the value of your car.

3

1

2

Ensure your RAV4 always looks like new with the tough and practical **textile floor mats** (1).

Protect your sill paintwork from scratches, scrapes and marks, while adding an aesthetic edge, with **aluminium scuff plates** (2).

The **premium smart key cover** (3) is a slick way to finish off your Hybrid look.

4

5

7

6

PROTECTING YOUR RAV4

The **front and rear mud flaps** (4) ensure that mud spray and flying stones won't ruin your Toyota's looks.

The **side step** (5) gives you easy access to the roof accessories while enhancing the rugged appeal of your car.

The **rear bumper protection plate** (6) guards the paintwork in the boot area, with extra styling detail to complement your RAV4's design.

With a special **anti-slip tailored boot lining** (7), featuring the same hexagonal design seen in the cabin, your luggage will always stay exactly where you put it.

STAND OUT IN STYLE

Add a touch of class along the lower edge of your car's boot with a premium **chrome boot garnish** (1).

Creating an elegant and powerful low profile appearance are the **chrome side sills** (2) which fit beautifully contoured along the sides of your car.

1

2

The accessories shown are just a small selection of the wide range available. For that extra level of safety, add Toyota's parking aid and/or child restraint seat; be guided with the Toyota navigation unit. Also, don't forget everyday practicalities and basic comfort with, for example, a storage box or ashtray.

Visit the Toyota website for the complete range of all accessories.

4

5

3

ACCESSORIES FOR TRANSPORTATION

The **detachable towing hitch** (3) has a tough anti-corrosion surface and is designed so that you can easily attach and remove the tow ball at your leisure.

The purposeful **aluminium roof crossbars** (4) add extra carrying capacity and come with Toyota's quick attachment mechanism, meaning you can even combine these with additional carrying accessories.

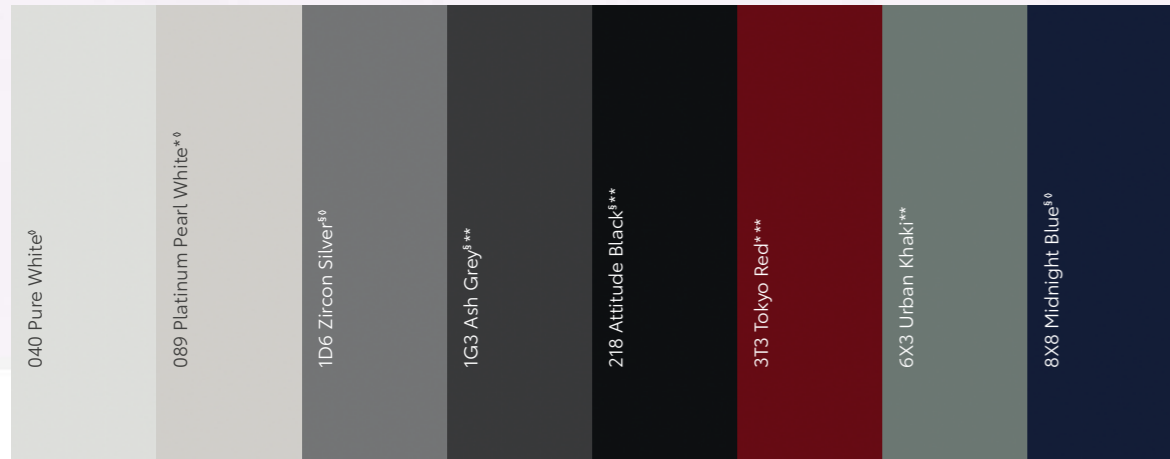

The **Thule Motion 800 ski box** (5) can hold two snowboards or up to four pairs of skis, depending on size. And in summer (or if skiing isn't your thing) it doubles as extra space for luggage.

COLOURS

The RAV4 offers a wide range of exterior colours from Pure White to Midnight Blue. And with Style Grade, you can contrast the Attitude Black roof with one of four body colours, to incredible effect.

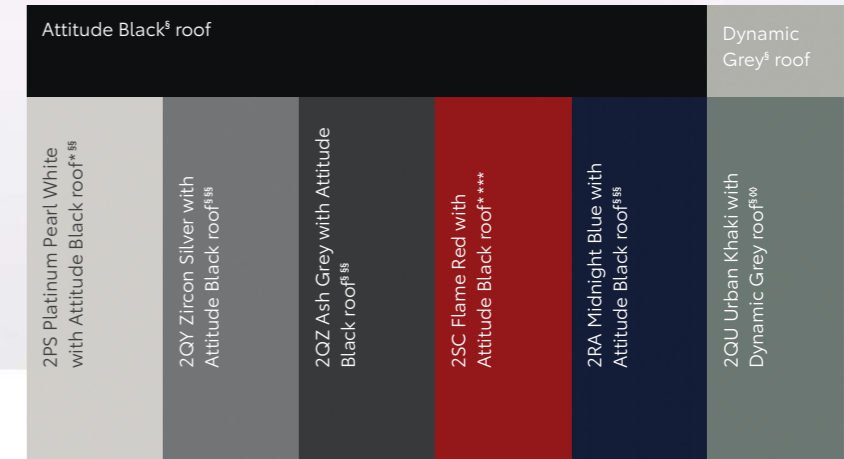

RAV4 mono colour choices

The fuel consumption, CO₂ and noise values are measured in a controlled environment on a basic production vehicle, in accordance with the requirements of European law published by the European Commission. For further information, or if you are interested in buying a basic production vehicle, please contact Toyota Motor Europe NV/SA. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, installed equipment, load, number of passengers, ...) play a role in determining a car's fuel consumption and CO₂ emissions.

TOYOTA 2050 ENVIRONMENTAL CHALLENGE & LIFECYCLE POLICY

At Toyota, we want to go beyond zero environmental impact and leave the world in a better place than we found it. To make that happen, we have set ourselves six challenges to complete by 2050. Each one presents its own difficulties, but we are committed to generating a positive and sustainable impact on society and the natural world as a whole.

For more information regarding Toyota Environmental Challenge please visit: <https://www.toyota.com.cy/discover-toyota/environment/challenge-2050> or contact your local Toyota retailer.

CHALLENGE 1 NEW VEHICLE – ZERO CO₂ EMISSIONS

By 2050, we want to reduce the CO₂ emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

CHALLENGE 4 MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

CHALLENGE 2 LIFE CYCLE – ZERO CO₂ EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle*.

CHALLENGE 5 ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota RAV4 is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'.

CHALLENGE 3 PLANT – ZERO CO₂ EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, as well as low-carbon power such as hydrogen energy.

CHALLENGE 6 ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

YOUR COMPLETE PEACE OF MIND WITH TOYOTA

HYBRID SERVICE PROGRAMME

Hybrid Battery Extra Care cover[§] on an annual/15,000 km basis (whichever comes sooner) up to the 10th year from vehicle registration date.

QUALITY SERVICE

Your Toyota will need a Health & Safety check at least once every 6 months / or 7,500 km (whichever comes sooner). An intermediate check is necessary every year or 15,000 km.

LOW MAINTENANCE COSTS

All Toyota vehicles are designed and engineered to minimise your maintenance costs.

GENUINE PARTS

Providing the reassurance of Toyota quality, only genuine and approved components are used on your vehicle.

COMPREHENSIVE WARRANTY

Every new Toyota comes with a 3-year/100,000 km vehicle warranty[§], which covers any defect caused by a manufacturing fault**.

ADDED SECURITY

Toyota's comprehensive security system withstands the insurance industry's rigorous 5-minute attack test.

GENUINE ACCESSORIES

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. All accessories are covered by a 3-year warranty when purchased together with the vehicle[§].

For more information on peace of mind visit: <https://www.toyota.com.cy/owners/parts-and-accessories>

[§] Check with your retailer for specific Toyota Hybrid Service Programme details. [§] Check with your retailer for specific warranty details. ^{**} Transport to the nearest authorised Toyota repairer will also be covered. In addition the 3-year/unlimited mileage paint warranty protects against defects and surface rust caused by a manufacturing fault. Every new Toyota is covered by a 12-year anti-corrosion (not valid for commercial vehicles) warranty against perforation of body panels caused by a manufacturing fault in materials or workmanship.
