

RAV4 PLUG-IN HYBRID

DUAL DNA

RICH SUV HERITAGE, DYNAMIC DUAL DNA

The RAV4 Plug-in Hybrid combines our most powerful Hybrid technology yet with outstanding EV capability to power you further, cleaner. Underneath its sophisticated design, the dual energy delivered by our fourth-generation Hybrid technology and high-capacity, lithium-ion battery allows you to enjoy instant acceleration and class-leading range.

CLEAN POWER

INSTANT POWER, UNRIVALLED EFFICIENCY

Powerful, dynamic and sure-footed, the RAV4 Plug-in Hybrid delivers a performance that's in a class of its own. Equipped with a 2.5-litre Hybrid Dynamic Force petrol engine and an intelligent all-wheel-drive system (AWD-i), it sprints from 0–100 km/h in just 6.0 seconds, thanks to its impressive traction and formidable 306 DIN hp output.

Best-in-class CO₂ emissions (22 g/km) and fuel consumption (1.0 l/100 km) show the RAV4 Plug-in Hybrid has the efficiency to match its effortless performance. A new 18.1 kW lithium-ion battery means you can travel up to 75 km* on pure EV power, while the car's 6.6 kW on-board charger provides a full battery charge in 2.5 hours.

Your way to true EV

Switch seamlessly from Hybrid to pure EV through the four-mode drive selector. The default EV mode allows the RAV4 Plug-in Hybrid to travel 75 km* and up to 135 km/h on zero-emission, electric power alone. When the battery is empty, simply let the RAV4's efficient Hybrid system power you on to your destination.

Interior

From a Head Up Display and 9-speaker JBL® Premium Audio system to wireless charging and a 230V boot power outlet, the RAV4 Plug-in Hybrid refined interior delivers uncompromising comfort and convenience.

INNER STYLE

OPENING UP A CABIN OF CONNECTIVITY

The stylish cabin of the RAV4 Plug-in Hybrid offers an ideal setting for a quiet and relaxing journey thanks to its sporty leather seats and a large panoramic roof. You'll also have ample space for everything you need with a 520 l boot for flexible load space with minimal battery intrusion.

Toyota RAV4 Plug-in Hybrid uses Toyota Smart Connect which works through Artificial Intelligence and the cloud to spare you grappling with buttons while driving. Without taking your hands off the wheel, Smart Voice Assist allows you to interact in more than 100 different ways across phone, navigation, audio, vehicle controls such as air conditioning or seats.

10.5" touch screen

The 10.5" touch screen displays all your important information in one convenient place while the Smart Voice Assist technology makes it easier than ever to focus on the road ahead while driving.

TOYOTA T-MATE

WITH YOU FOR A SAFER JOURNEY

T-Mate is a series of systems designed to support you and make driving safer, whether you're on the motorway, in the city or parking, T-Mate makes sure you're always in safe hands.

One of its key features is Pre-Collision System, which can detect hazards and help you avoid collisions with other vehicles, pedestrians and cyclists. It works by alerting the driver with audio and visual warnings and brake assistance. If the driver doesn't manage to brake in time the brakes automatically engage to prevent or mitigate a collision. New Intersection Collision Avoidance Support and Emergency Steering Assist support in the day when turning at junctions and making evasive manoeuvres. This feature is part of Toyota Safety Sense package, that includes the latest technologies designed to prevent the most common types of accident.

12.3" TFT combimeter

A new 12.3" TFT combimeter keeps important information in your eye line while driving.

MAKING DRIVING AND PARKING SAFER AND MORE CONVENIENT

As part of Toyota's commitment to making traffic accidents a thing of the past, the RAV4 PHEV also offers innovative driving and parking assistance. Panoramic View Monitor combines images from four cameras for a 360 view of your surroundings, so nothing is out of sight – even when manoeuvring in confined spaces. And just in case you missed anything, warnings from your Blind Spot Monitor and Rear Seat Reminder System alert you to when overtaking and exiting the vehicle.

STAND OUT IN STYLE

ACCESSORIES

Mud, track or highway, the RAV4 Plug-in Hybrid always means business. If you want to prove these tough credentials, you'll love the genuine Toyota accessories range. It has everything for an even more striking, functional and ready-for-anything RAV4 Plug-in Hybrid.

Chrome garnish

Add a touch of class along the lower edge of your car's boot with a premium chrome boot garnish (1). Creating an elegant and powerful low profile appearance are the chrome side sills (2) which fit beautifully contoured along the sides of your car.

Visit www.toyota-europe.com or go to your local Toyota retailer for details of the full accessories range.

1.

2.

Side step

The side step gives you easy access to the roof accessories while enhancing the rugged appeal of your car.

3. Cable storage bag

This stylish storage bag keeps your charging cable in good condition and prevents it from getting tangled or cluttering your luggage space.

4. Charging cable

When charging on the go, use this cable (available in 5m, 7.5m or 10m lengths) to connect your RAV4 Plug-in Hybrid to a public charging station.

5. 22 kW Entry Wallbox with charging cable

One of the smallest of its kind, the 22 kW Entry Wallbox features an integrated charging cable and Type 2 plug for home and semi-public applications.

6. 22 kW Connected Wallbox with charging socket

Equipped with one Type 2 charging socket, the 22 kW Connected Wallbox is a smart charging solution for home and semi-public applications. Featuring LAN, WiFi and optional LTE.

The fuel consumption, CO₂ and noise values are measured in a controlled environment on a basic production vehicle, in accordance with the requirements of European law published by the European Commission. For further information, or if you are interested in buying a basic production vehicle, please contact Toyota Motor Europe NV/SA. The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, installed equipment, load, number of passengers, ...) play a role in determining a car's fuel consumption and CO₂ emissions.

TOYOTA 2050 ENVIRONMENTAL CHALLENGE & LIFECYCLE POLICY

At Toyota, we want to go beyond zero environmental impact and leave the world in a better place than we found it. To make that happen, we have set ourselves six challenges to complete by 2050. Each one presents its own difficulties, but we are committed to generating a positive and sustainable impact on society and the natural world as a whole.

For more information regarding Toyota Environmental Challenge please visit: <https://www.toyota.com.cy/discover-toyota/environment/challenge-2050> or contact your local Toyota retailer.

CHALLENGE 1 NEW VEHICLE – ZERO CO₂ EMISSIONS

By 2050, we want to reduce the CO₂ emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

CHALLENGE 3 PLANT – ZERO CO₂ EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, as well as low-carbon power such as hydrogen energy.

CHALLENGE 5 ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota RAV4 Plug-in Hybrid is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'.

* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

CHALLENGE 2 LIFE CYCLE – ZERO CO₂ EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle*.

CHALLENGE 4 MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

CHALLENGE 6 ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

YOUR COMPLETE PEACE OF MIND WITH TOYOTA

COMPREHENSIVE WARRANTY
Every new Toyota comes with a 3-year/ 100,000 km vehicle warranty[§], which covers any defect caused by a manufacturing fault**.

ADDED SECURITY
Toyota's comprehensive security system withstands the insurance industry's rigorous 5-minute attack test.

GENUINE ACCESSORIES
Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. All accessories are covered by a 3-year warranty when purchased together with the vehicle[§].

HYBRID SERVICE PROGRAMME
Hybrid Battery Extra Care cover[§] on an annual/ 15,000 km basis (whichever comes sooner) up to the 10th year from vehicle registration date.

QUALITY SERVICE
Your Toyota will need a Health & Safety check at least once every 6 months / or 7,500 km (whichever comes sooner). An intermediate check is necessary every year or 15,000 km.

LOW MAINTENANCE COSTS
All Toyota vehicles are designed and engineered to minimise your maintenance costs.

GENUINE PARTS
Providing the reassurance of Toyota quality, only genuine and approved components are used on your vehicle.

For more information on peace of mind visit: <https://www.toyota.com.cy/owners/parts-and-accessories>

[§] Check with your retailer for specific Toyota Hybrid Service Programme details. [§] Check with your retailer for specific warranty details. ^{**} Transport to the nearest authorised Toyota repairer will also be covered. In addition the 3-year/unlimited mileage paint warranty protects against defects and surface rust caused by a manufacturing fault. Every new Toyota is covered by a 12-year anti-corrosion (not valid for commercial vehicles) warranty against perforation of body panels caused by a manufacturing fault in materials or workmanship.
